

Spring Brook Elementary

Recess Procedures:

1. Students will exit the lunchroom quietly and proceed to the playground. Lunch boxes will be placed on the line that is the same number as their table number. If the blacktop is wet, the lunchboxes will be placed in large bins designated with a number that corresponds to their table number.
2. Recess is 15 minutes. Students are allowed to play on a majority of the playground if conditions are appropriate, i.e. baseball field may be off limits if it is muddy. Kindergarten students stay on the blacktop and woodchip area for the first semester.
3. At approximately 14 minutes into recess, the supervisors will blow their whistles. Students stop what they are doing and proceed to their designated line number.
4. Students wait at their line for their teachers to pick them up and return to the classrooms.
